

Igniting Innovation: TechGenius Grant for Technology Advancement

Grant Information:

TechGenius, a non-profit organization headquartered in Bangkok, Thailand, has been awarded an innovation-centric grant of \$1,500,000 by the Foundation for Tech Advancement (FTA). This grant is set to amplify TechGenius' mission of advancing technology education and digital innovation in Southeast Asia, with an emphasis on underserved regions and marginalized communities.

TechGenius is at the forefront of promoting technology education, digital skills development, and fostering innovation through hackathons and startup incubation.

This grant will reinforce three primary areas:

1. **Technology Education:** TechGenius conducts workshops and courses to equip individuals with necessary digital skills. The grant will augment the organization's capacity to reach more communities across Southeast Asia.
2. **Startup Incubation:** A portion of the grant will support TechGenius' startup incubation program, designed to help budding tech entrepreneurs bring their innovative ideas to life.
3. **Digital Inclusion:** The grant will also fund initiatives that promote digital inclusion, ensuring that technology education and opportunities reach marginalized communities.

Key individuals driving TechGenius' vision include Chanarong Vong, Lalana Srisawat, Mintra Tan, Phakdi Lertsinsongserm, and Aticha Kongphan.
