

## Empowering Sustainable Futures: An Educational Grant for Sustainable Horizons

### Grant Information:

Sustainable Horizons, a non-profit organization based in New York, has been awarded an impactful grant of \$750,000 by the Global Environmental and Educational Fund (GEEF). The grant will significantly further the cause of Sustainable Horizons in promoting environmental education among youth and women across the United States.

With the vision of fostering an environmentally conscious society, Sustainable Horizons designs and implements programs focused on environmental education, sustainable practices, and youth and women empowerment.

The grant aims to bolster three primary areas of the organization's work:

1. **Environmental Education:** The organization conducts workshops and programs to raise awareness about environmental issues and sustainable practices. The grant will enable Sustainable Horizons to extend their reach to additional schools and communities.
2. **Women Empowerment:** A significant portion of the grant is reserved for programs that empower women with knowledge and resources to contribute to sustainable practices within their communities.
3. **Youth Engagement:** Sustainable Horizons believes in the power of the youth in effecting change. The grant will be utilized to establish youth clubs that aim to create young environmental stewards in their communities.

Key people involved include John Doe, Jane Smith, Alice Johnson, and Bob Williams, who have demonstrated a consistent commitment to Sustainable Horizon's mission.
